

Shower Foot Rest

Comfort & Support

Manufactured from durable stainless steel

Shower
Foot Rest

Application Use:

Architectural

Commercial

Institutional

Residential

Specifications:

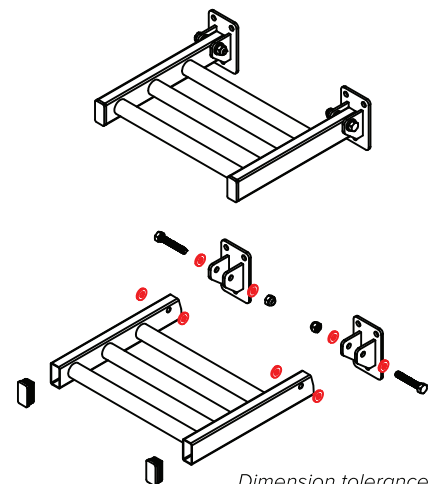

Our stainless steel Shower Foot Rest with its sturdy round bars is designed to comfortably support your raised foot while standing in the shower to shave your legs or wash your feet. The bars allow for drainage, ensuring no water build up.

The stainless steel Shower Foot Rest is manufactured using high quality 12 and 18 gauge 304 stainless steel. It will not rust, fade or peel, especially in a wet environment, keeping it looking as good as new for years to come.

The weight limit is 200 lbs. Is not intended for use as steps. Use is for foot support only. Wood backing needs to be used for installation.

EL-FOOTREST	Stainless Steel
